# Learning Lifted Off the Page!

## Mornings

Start in the classroom with literature, writing and math activities inspired by that week's theme.

(Think novels, journals, autobiographies and math about building, sewing, and experimenting.)

## Afternoons

Continue the exploration of the theme with hands-on activities and field trips.

(Think planting, cooking, creating, producing, figuring and deciding.)

## Celebrations

Each week culminates with a family-friendly activity

(Think stargazing, pioneer cook-outs, puppet shows and science fairs.)

June 11 to August 3

8am to 5:30pm

1:8 Student/Counselor Ratio

Professional Adult Teacher-Counselors

Safe and Nurturing Environment

Ages 6-12
