**Weekly Club Time:** 3:30 - 4:30 PM

This is designed to introduce STEM concepts, exciting them through a brand they know and love – LEGO®. Guided by coaches, teams explore “Boom Town” – Come with us to live on the moon. What do you need to know about the Moon to live there? What will you eat and drink? How will you get energy? How will you breathe? What will you do for fun? What other problems will you have to solve? Then the team creates a Show Me poster that illustrates their journey of discovery and introduces their team. They also construct a motorized model of what they learned using LEGO elements. In the process, teams learn about teamwork, the wonders of science and technology, and the FIRST LEGO League Jr. Core Values, which include respect, sharing, and critical thinking. At the close of each season, teams come together at Expos to strut their stuff, share ideas, celebrate, and have fun!
